Latest Hotel Review

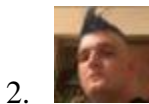

Will constantly remind you to smoke outside, even in the middle of the night, and if you don't smoke or are even awake. The front desk staff have such enlightening conversations, such as how to have anal sex with a china man or how to force frozen grapes up ones anus.

The house keeping staff has no problems throwing live seafood at you. Have you ever wanted a Dungeness crab, hurled at you, by a puerto rican? Then this is your hotel.

No curtains or safety mats in the shower. Don't bother asking cause they will tell you to eat a penis, like literally. They also will ask to watch you have sex with you gf, bf, or ask if you would with their dog.

Other than that, it's a great place.
